Tutorial Intro

Let's discover **Docusaurus in less than 5 minutes**.

Getting Started

Get started by **creating a new site**.

Or **try Docusaurus immediately** with **docusaurus.new**.

What you'll need

- Node.js version 16.14 or above:
  - When installing Node.js, you are recommended to check all checkboxes related to dependencies.

Generate a new site

Generate a new Docusaurus site using the **classic template**.

The classic template will automatically be added to your project after you run the command:

```
npm init docusaurus@latest my-website classic
```

You can type this command into Command Prompt, Powershell, Terminal, or any other integrated terminal of your code editor.

The command also installs all necessary dependencies you need to run Docusaurus.

Start your site

Run the development server:

```
cd my-website
npm run start
```

The `cd` command changes the directory you're working with. In order to work with your newly created Docusaurus site, you'll need to navigate the terminal there.

The `npm run start` command builds your website locally and serves it through a development server, ready for you to view at http://localhost:3000/.

Open `docs/intro.md` (this page) and edit some lines: the site **reloads automatically** and displays your changes.

✏️ Edit this page

Create a Page

Add **Markdown or React** files to `src/pages` to create a **standalone page**:

- `src/pages/index.js` → `localhost:3000/`
- `src/pages/foo.md` → `localhost:3000/foo`
- `src/pages/foo/bar.js` → `localhost:3000/foo/bar`

Create your first React Page

Create a file at `src/pages/my-react-page.js`:

src/pages/my-react-page.js

```
import React from 'react';
import Layout from '@theme/Layout';
export default function MyReactPage() {
  return (
    <Layout>
      <h1>My React page</h1>
      <p>This is a React page</p>
    </Layout>
  );
}
```

A new page is now available at http://localhost:3000/my-react-page.

Create your first Markdown Page

Create a file at `src/pages/my-markdown-page.md`:

src/pages/my-markdown-page.md

```
# My Markdown page
This is a Markdown page
```

A new page is now available at http://localhost:3000/my-markdown-page.

Create a Document

Documents are **groups of pages** connected through:

- a **sidebar**
- **previous/next navigation**
- **versioning**

Create your first Doc

Create a Markdown file at `docs/hello.md`:

> docs/hello.md
>
> ```
> # Hello
> This is my **first Docusaurus document**!
> ```

A new document is now available at http://localhost:3000/docs/hello.

Configure the Sidebar

Docusaurus automatically **creates a sidebar** from the `docs` folder.

Add metadata to customize the sidebar label and position:

> docs/hello.md
>
> ```
> ---
> sidebar_label: 'Hi!'
> sidebar_position: 3
> ---
> # Hello
> This is my **first Docusaurus document**!
> ```

It is also possible to create your sidebar explicitly in `sidebars.js`:

> sidebars.js

```
module.exports = {
  tutorialSidebar: [
    'intro',
    'hello',
    {
      type: 'category',
      label: 'Tutorial',
      items: ['tutorial-basics/create-a-document'],
    },
  ],
};
```
